# Accessing AWS Certification Official Practice Question Sets

CONFIDENTIAL – DO NOT DISTRIBUTE

AWS Academy offers a free self-service option for students and educators to gain valuable exam preparation using certification practice question sets. Educators and students access the AWS Certification Official Practice Question Sets through the AWS Skill Builder (https://explore.skillbuilder.aws). The practice questions feature 20 questions developed by AWS to demonstrate the style of our certification exams.
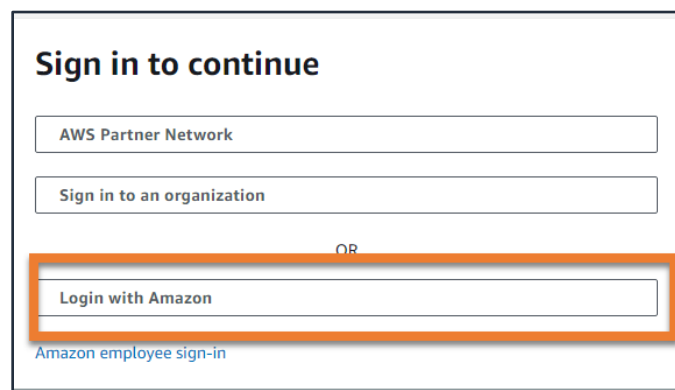

Step 1: Login to AWS Skill Builder

1. Navigate to https://explore.skillbuilder.aws/learn.
2. Choose **Sign In.**

3. Choose **Sign in to AWS Skill Builder.**

4. Select **Login with Amazon.**

aws academy

5. Enter your personal Amazon login (mail or mobile phone number) and password, then choose **Sign-in**. If you don't have an Amazon account, choose '**Create your Amazon account**'. It is free to set up an Amazon account.

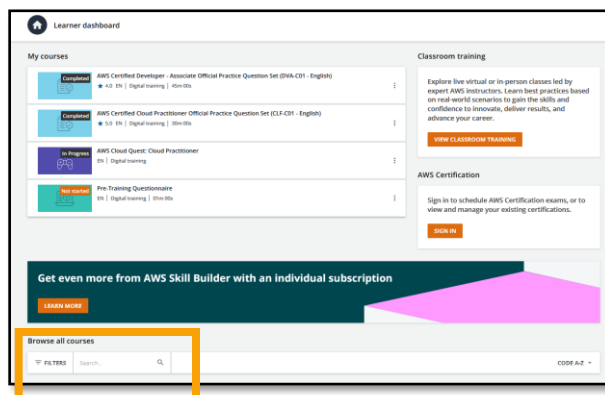

*A second screen may appear asking for you to Allow to Sign-In to T&C Identity Management Service. Choose **Allow to continue**.

Step 2: Enroll in the *AWS Certification Official Practice Question Sets* course (Practice Exam)

Now that you are logged in to AWS Skill Builder, the Learner Dashboard Screen or the Course Catalog screen displays.
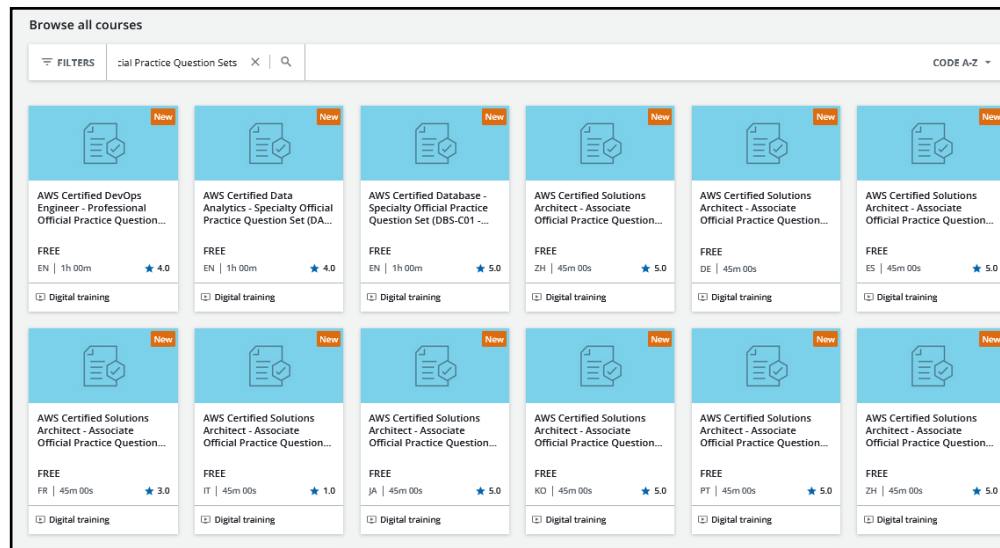

1. Type in *AWS Certification Official Practice Question Sets* in the search bar and choose the magnifying glass icon.
